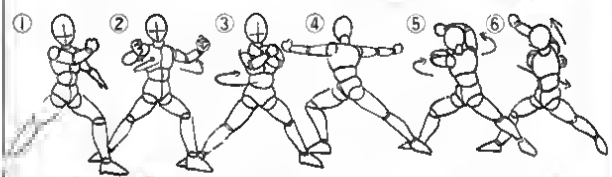
# REMEMBER THE ACTIONS AND YOU CAN BE WINGMAN TOO !

## ★ AKU SAKU SECTION

This action too really isn't special, Kenta took these poses as he pleases. Be careful of the clatter in the leg's center of gravity!



1 Continue from the Chaung pose

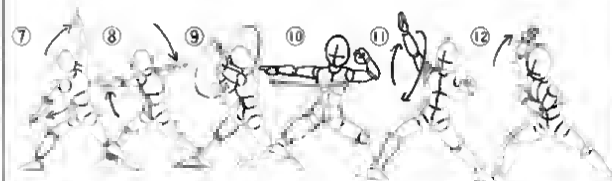
2 With heart, open your arms like the drawing

3 Quickly close your hands. While doing so, turn your body around

4 Steadily, while looking behind, quickly open both arms.

5 Move your arms like in the drawing

6 While doing so, turn your body to the front



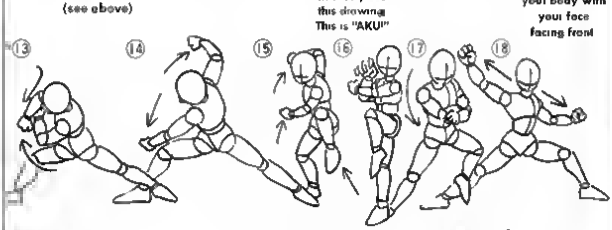
7 8 As your body is moving to the front, turn like the drawing. (see above)

9 Exactly like 5, place your body in reverse

10 When your body is completely in front set up your right hand to wave intensely like this drawing. This is "AKU!"

11 Turn your right arm once like the drawing

12 Once more like you're turning your right arm, move down your body with your face facing front



13 Like the drawing, place your hands on top of each other

14 Firmly set your arms to open up. This is "Saku!"

15 16 Raise your left leg and set your right hand as a wild eagle like the drawing (see above)

17 Turn both hands like such and largely step your left leg

18 Posing your hands quickly, open your chest and conclude it! This is "Wingman!"
